In response to the Examiner's action dated November 5, 2002, please amend the application as follows. The amendments are presented below in clean form (i.e., without markings that indicate the changes that have been made); marked-up versions of the amendments are presented in the attached appendix.

In the claims:

13. An optoelectronic device, comprising:

an optical lens system comprising a lens substrate supporting one or more optical lenses, and a semiconductor spacer substrate defining one or more apertures therethrough;
and

an optical device system comprising a device substrate supporting one or more optical devices;

wherein the lens substrate is bonded to the spacer substrate and the spacer substrate is bonded to the device substrate with the one or more optical lenses, the one or more optical apertures and the one or more optical devices held together in registered alignment.

23. The optoelectronic device of claim 4, wherein multiple optical lenses are cooperatively arranged in optical alignment with multiple respective optical devices.
